- Served as a programming intern at Leti arts, contributed on was the 2d platformer about the trotro culture in the game engine unity.

Intern/Dobiison

May 2025 – June 2025, Accra, Ghana

- Gained hands-on experience as a developer with Unity and Blender for game and interactive media development.
- Collaborated closely with a team, which strengthened my skills in communication, problem-solving, and teamwork.
- Managing assets for the project and ensured they met both technical requirements needed for the project.

PROJECT EXPERIENCE

Website Developer

January 2025 – April 2025, Accra, Ghana

- Created a portfolio website to test my HTML, CSS, and JavaScript skills, and recognize the gap between myself and more experienced developers
- Gained firsthand insight into what it feels like to be a programmer, as well as a UI and UX designer—all in one.
- Allowed me to assess my skill level and recognize the gap between myself and more experienced developers

Game developer/It Can't Be Beaten

September 2025 – October 2025, Accra, Ghana

- Built a 2d game In Godot to explore my interest as a game developer
- Explored what it took to create a 2d platformer in unity
- Explored creating a trash collecting game that spread awareness about pollution with the use of VR using both unity and Godot.

Restore Ghana

March 2026 – April 2026, Accra, Ghana

- Participated with a team to create a reporting system that tackles a major real-world issue, Illegal mining, called Restore Ghana.
- Built an AI report and analysis system for areas affected badly by Illegal mining
